

JIEE Request for Reviewer

Manuscript Title:

1. Please state the main objective and provide a brief description of the manuscript in your own words.
2. Please provide a list of the manuscript's novelty or original contributions
3. Please provide your opinion regarding the author's description of points to help readers to avoid pitfalls in their own research work
4. Please comment on the organization of the paper and offer any suggestions that you think will improve the content and readability of the manuscript.
5. Please comment on the technical correctness of the manuscript. Identify any specific technical inaccuracies that you find and make suggestions for correcting those.
6. Please discuss the quality of the citations in this manuscript. If you think the citations should be improved, please provide specific references or sources of articles, such as journals or magazines, that should be consulted.
7. Please provide a list of the manuscript's strengths and weaknesses.
8. Please confirm that the information provided in the manuscript is contemporary and consistent. If otherwise, please provide your comments.
9. Please check whether sufficient research has been performed by the authors and evidence exists to support the authors' claims. If otherwise, please provide your comments.
10. Please provide your opinion regarding the appropriateness, clarity, and sufficiency of the title, tables, charts, and figures contained in the manuscript. Please give page numbers and make direct reference to the specific areas of the manuscript on which you are commenting.
11. For additional detailed comments and illustrations, please list the queries for the author.
12. Reviewer's Overall Recommendation
